

CINCINNATI
INDUSTRIAL MACHINERY

Finishing Systems

Cincinnati Industrial Machinery is a full service, turnkey manufacturer and installer of industrial finishing systems for a variety of industries. Our team has decades of experience in the design, manufacture, and installation of surface preparation finishing systems. From powder coating, electro-coating systems, paint applications, pretreatment systems, spray booths, and other high quality industrial finishing systems, CIM has you covered.

Powder Coating Systems

- High-quality finishing system for a more durable finish than liquid paints
- Systems include manual, automatic unit, small batch, or automated conveyor
- Environmentally friendly finishing option with no solvents involved, creating a virtually pollution-free application
- Provides an even coating with minimal waste and maximum efficiency
- CIM takes into consideration factors such as durability, noise, efficiency, lighting, and cost when designing a system

Proudly Manufacturing Your Industrial Washers & Finishing Systems Since 1943

4600 N. Mason Montgomery Road • Mason, OH 45040
800-677-0076 • Fax: 513-923-5694

Finishing Systems

Electro-Coating Systems

- State-of-the-art eCoating systems are custom designed for your application
- Electro-coating provides a high quality finish in an efficient and environmentally friendly way with applications for many industries
- The benefits of eCoat finishing system include a uniform thickness, complete coverage from edge to edge and superior color and gloss control that is stain, chemical, and detergent resistant

Wet Paint Systems

- Fully integrated turnkey systems designed for your industrial application
- Overhead monorail, enclosed track, and conveyor systems
- Systems can be integrated into existing finishing system or built for use with new equipment
- High quality components and craftsmanship
- Multiple material handling solutions available

For all Your Finishing System Needs, CIM will help you handle it, wash it, dry it, paint it, cure it, and finish it!
