

CINCINNATI
INDUSTRIAL MACHINERY

Time is Money!

Start Producing Cans Faster & Stay Producing Cans Longer

- Built in our own facility under one roof with a full quality control run-off test allows for a quick, 1 or 2 weeks, reassembly in the customer's facility.
- Patented Automatic Quick Adjust System provides precise can height changeover in less than 90 seconds with just the touch of a button.
- Tightly engineered and quality-controlled manufactured equipment results in 99.6% uptime reliability.
- With 381,000 sqft of production, our Midwest US and Shanghai factories achieve lead times as low as 24 weeks, and faster and less expensive shipping to North America and Asia-Pacific customers.
