Industrial Series Turntable Washers

Turntable washers are designed to process a variety of parts

Revolving Turntable Washers can be arranged for precision indexing applications with fixtured part mounts or they can also handle randomly fed parts or baskets on a continuous basis. The compact turntable design conserves floor space and usually requires only one operator as work enters and exits from the same point.

Enduring Construction

- Stainless steel machine fabrication
- Double welded, water tight tanks
- Epoxy coated tube-axial exhaust fan
- Industrial vertical close-coupled pumps
- Bag filter/stage
- Stainless steel table
- Stainless steel spray & pump piping
- CPVC water inlet piping, single point connection

Easy Maintenance

- Ethernet capable
- Quick disconnect riser couplings
- Clip-on nozzles
- Automatic water fill
- Lift-out splash curtains
- All lubrication points easily accessible
- Stainless steel round marine doors (single bolt)
- No belts/sheaves on fan drives
- Lift-off tank access lid with stainless steel pump screen
- Lift-off housing access doors
- Lifting lugs for machine mobility

Operator Friendly

- PLC control
- Color display HMI
- Variable speed conveyor controller
- Variable speed pump controllers
- Variable speed fan controllers
- Programmed preheat-up of tanks
- Air knife and spray nozzle angles easily adjustable

Elite Finish

- Stainless steel finish
- Painted control panel
- All guarding painted safety yellow

Environmentally Conscious and Safety Minded

- Insulated blow-off heating chamber
- Premium efficiency motors
- Variable speed drive controllers
- Energy conservation mode
- Light curtain @ load/unload
- Load/unload e-stops
- Mechanically guarded drive components
- Ergonomic design
- High temperature cut-off switch in blow-off
- Low solution level cut-off switches
